## *Salt Spa Signature Facial*

Boost your skin and get that country glow with our rejuvenating facial which uses OrganicSpa enlivening products that will put the lustre back into your skin, that may be missing due to the harsh environs of city air pollution. During this facial, we never take our hands off you, constantly working to stimulate collagen and bring out your inner glow from beneath your skin. Whilst your skin enjoys the benefits of our chosen mask for your skin type, we continue to create the ultimate experience by doing an aromatic arm, hand and feet massage, with an organic spa sea salt scrub to the feet.

## *Salt Spa Anti Ageing Bee Venom Manuka Placenta Facial*

See what the buzz is about. This is our deep penetration paramedical facial. This facial is formulated for a rapid anti-ageing effect. It consists of a soothing blend of waxes and oils as well as including three products from Manuka honey, bee venom and sheep placenta (it really is the FARM facial!). The bee venom facial will gently stimulate your facial muscles to tighten and firm the skin, reducing the effects of your frown and laughter lines. Our placenta serum... where do we start? It's a proven skin care shown to erase wrinkles and firm skin by adding deep hydration to the skin. The protein in placenta also has a plumping effect which makes your skin look younger and firmer. Finished with our Manuka honey moisturiser cream, this restores and hydrates dry cracked and damaged skin enhancing natural cell rejuvenation.
